

AIM

To provide opportunities for members to take part in kiting activities both socially and competitively.

OBJECTIVES

To organise flying times, competitions, workshops and participation in other community events.

To provide a means of communication between members and national and international groups.

To provide a means of interchanging ideas on design, building and flying kites.

To promote actively the art, science and craft of kite flying and building, to the community.

MANAGEMENT

KITE FLYERS of TASMANIA INC. is managed by a General Committee comprised of annually elected Office Bearers - President, Vice-President, Secretary / Treasurer and seven Committee Members.

MEMBERSHIP

Membership is open to any person who professes an interest in kiting and agrees to be bound by the rules/regulations of the Club.

Memberships run from 1 July – 30 June.

Joining the club 1 Jan – 30 June is 50% of the full years membership fee.

BENEFITS

The Club endeavours to produce four newsletters per year, to keep members statewide informed of upcoming events and report on past events. Insurance cover is also provided for members "Covering all activities organised by the KITE FLYERS of TASMANIA INC. - Principally kite flying days and workshops for members and/or for demonstration purposes".

KITE FLYERS KODE

1. Never fly near transmission towers, antennae or power lines (if a kite becomes entangled in a power line LEAVE IT THERE and contact the Hydro Electric Commission's Emergency Service, as soon as possible).
2. Never fly a kite during an approaching storm or in the rain a wet line and some kite spars will conduct electricity. Also, never fly using wire for flying line.
3. Always observe air safety regulations - 90 metre height limit, and not within a 4 km radius of an airport.
4. Kites should always be used in open areas - away from people, buildings, trees, cars, roads, power lines and animals.
5. Never swoop down on people or "buzz" them with your kite.
6. Always respect other kite flyers, their kites and their flying space.
7. Do not use "Kevlar" lines (it is hard and abrasive and cuts through most other lines and also human tissue).
8. Always clean up any rubbish you may have created while flying.
9. Always follow the four "C's" of kite flying:

CAUTION

COURTESY

COMMON SENSE

and **CONTROL.**

10. Always have FUN!!
